### DETAILED ACTION

Acknowledgment is made of the amendment filed on 1/21/11. Claims 1-44 and 46-53 are currently pending.

#### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-44 and 46-53 are rejected under 35 U.S.C. 102(e) as being Ferrara et al by (US 2007/0267486) (hereinafter referred to as 'Ferrara').

Ferrara teaches

a method for producing a transaction card corresponding to an account of a customer, the method comprising:

associating an optically-readable identifier with an image to be applied to the transaction card;

reading said optical identifier to reconcile the optical identifier with a corresponding identifier associated with customer account information to be applied to the transaction card; and

producing a transaction card bearing said customer-defined image and said customer account information (paragraphs 18 and 19).

***Response to Arguments***

3. Applicant's arguments with respect to claims 1-44 and 46-53 have been considered but are moot in view of the new ground(s) of rejection.
